

Easy-to-Update Mobile Websites +
Facebook & Google Targeted Marketing
that gets you found more by your customers!

Two Digital Marketing Facts in 2019

1. Google ranks websites higher that view well on desktops, cell phones, & tablets.
2. Facebook Targeted Ad marketing is an affordable and powerful way to put your business in front of your geographic and interested customers!

Gem Webb

We are your **external marketing department!**

Hello, my name is Gem Webb and I'm the owner and president of Gem Webb Internet Marketing & Web Design Inc. We are based in the beautiful city of Owen Sound (Grey and Bruce Counties). We work with various industry-specific clients offering website development and Internet marketing services that help businesses get found by their customers with proper mobile optimized websites and on Google and Social Media.

My team takes the time to mentor, guide, and educate our clients to better understand your marketing business goals and represent you online. Maybe the solution is a new mobile website, maybe it's keyword optimizing (SEO) your current website, or perhaps it's setting up monthly social media posts and Google search ads. Your objectives and budget will guide us as we decide, together, the best direction for you to achieve your business goals. The Gem Webb team is committed to a long-term relationship that will support your business for many years to come.

OUR DIGITAL MARKETING SERVICES

- | | |
|---|--|
| ✓ Mobile-Friendly Web Design | ✓ Search Engine Optimization |
